

Colony Price Increase Notice

Effective January 1, 2022

May 28, 2021

To Our Valued Dealers and Distributors,

Colony Machine and Tool Inc. has been producing and distributing a vast range of replacement parts and accessories for Harley Davidson® Motorcycles for over 50 years to a wholesale market. We have established a reputation for excellent service, the highest quality, and a large selection.

As we all know times are changing, we have been forced to enter a challenging market environment. The pandemic made quite the impact on all of us, especially on businesses and the economy. Over the past few years, especially since 2020, we have been experiencing a rapid increase in our cost of raw materials and other miscellaneous product. Despite these rapid changes, we have been absorbing the cost disruption for years to keep supplying you with our product at a low cost. We are unable to keep absorbing this major disruption. It is becoming too significant of an escalation in cost, this is out of our control.

As a result, Colony is announcing a 10% price increase across the board on all product effective January 1, 2022. This is the first major price increase we have had in many years. We thank you all for understanding and for your continued support and business. Thank you for choosing Colony!

Sincerely,

Mark Borcoman

Owner and President
